Management's Responsibilities for the standalone Ind AS Financial Results

6. The Company's Board of Directors are responsible for the matter states in Section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of state of affairs, profit and loss including other comprehensive income, change in equity and cash flows of the company and other financial information in accordance with the recognition and measurement principles laid down in India Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principle generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and others irregularities, selection and application of appropriate accounting policies; making judgement and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate Internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
8. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAS will always detect a material misstatement when it exists. Misstatements Can arise from fraud or error and are Considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the standalone financial statements.
10. As part of an audit in accordance with SAS, we exercise professional judgment and maintain professional scepticism throughout the audit. We also,
- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
 - Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

GUJARAT STATE INVESTMENTS LIMITED

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 17 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date).

Report on the **Internal Financial Controls Over Financial Reporting** under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act').

We have audited the internal financial controls with reference to standalone financial statements of **Gujarat State Investments Limited** ("the Company") as of 31st March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

We have audited the internal financial controls over financial reporting of **Gujarat State Investments Limited** ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

GUJARAT STATE INVESTMENTS LIMITED

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that 1). pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

GUJARAT STATE INVESTMENTS LIMITED

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

Company Overview & Material Accounting Policies

1. Reporting Entity

Gujarat State Investments Limited (the 'Company') is a Company domiciled in India, with its registered office situated at 6th Floor, H K House, Ashram Road, Ahmedabad, 380009, Gujarat, India. The Company has been incorporated under the provisions of Companies Act, 1956. The Company is primarily involved in Investments activity. The company has been registered as a Core Investments Company (CIC) Specified NBFC with the Reserve Bank of India in terms of the regulation governing Non-Banking Financial Companies.

2. Basis of preparation

a. Statement of compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

b. Functional and presentation currency

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh as per the requirement of Schedule III, unless otherwise stated.

c. Basis of Measurement

The financial statements have been prepared on the historical cost basis except for the following items:

- 1) certain financial assets and liabilities that are measured at fair value;
- 2) defined benefit plans - plan assets measured at fair value;
- 3) Quoted Investments other than Investments in Subsidiary and Associates – measured at fair value

d. Use of Estimates and Judgments:

In preparing these financial statements, management has made judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, incomes and expenses. Actual results may differ from these estimates.

Estimates:

Estimates and underlying assumptions are reviewed on an ongoing basis. They are based on historical experience and other factors including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Revisions to the accounting estimates are recognized prospectively.

Judgments:

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the respective note.

Assumptions and Estimation Uncertainties:

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the respective note.

e. Measurement of Fair Values:

The Company has established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's Board of Directors.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the financial statements.

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in measuring fair values is included in the respective note.

3. Material Accounting Policies

A. Financial Instruments

a. Financial Assets:

i.) Classification:

The Company classifies its financial assets in the following measurement categories:

- Those measured at amortized cost and
- Those measured at fair value through profit or loss.
- Those measured at fair value through other comprehensive income.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL and FVCOI:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of a financial asset give rise on specified dates to cash flows that are solely payments of Principal and interest on the principal amount outstanding.

Financial assets are not reclassified subsequent to their initial recognition except if and in the period the Company changes its business model for managing financial assets.

GUJARAT STATE INVESTMENTS LIMITED

ii.) Measurement

At initial recognition, the Company measures a financial asset when it becomes a party to the contractual provisions of the instruments and measures at its fair value. Transaction costs are incremental costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent Measurement and Gains and Losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains including any interest or dividend income, are recognized in profit or loss.
Financial assets at FVOCI	These assets are subsequently measured at fair value. Net gains including any interest or dividend income, are recognized through other comprehensive income.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.

Equity Instrument:

All equity investments in scope of Ind-AS 109 are measured at fair value. The Company decides to classify the Equity instruments either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

The company has elected to Fair Value Investment in equity shares of subsidiary and associate at transitional date and carry the same as deemed cost thereafter.

iii.) De-recognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

b. Financial Liabilities:

(i) Classification, Subsequent Measurement and Gains and losses

Financial liabilities are classified as measured at Historical cost. Government of Gujarat, in capacity of the Promoter of the company, provides investment funds in form of interest free loans having specific directions to invest in equity shares of Group Entities of the company in terms of CIC directions. Investment funds, released as loan by GoG, when received for investment in equity are recognized as financial liabilities. There exist an obligation, however, the terms and conditions do not specify that whether the loan is repayable on demand and also fixed repayment schedule is not specified.

(ii) De-recognition

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the profit or loss.

B. Property, Plant and Equipment

i. Recognition and Measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation, and accumulated impairment losses, if any.

Useful lives have been determined in accordance with Schedule II to the Companies Act, 2013. The residual values are not more than 5% of the original cost of the asset.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Depreciation

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives which are in line with as specified under schedule II of the Act.

Useful life of the assets are as under:

1. Vehicle – 8 years
2. Furniture & Fixtures – 10 years
3. Office Equipment – 10 years
4. Computers – 3 years

Depreciation is provided on a pro-rata basis from the date on which such asset is ready for its intended use. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. PPE is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised.

C. Lease

The company's lease arrangements primarily consist of lease for office building. At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

D. Employee Benefits

Short Term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Defined Benefit Plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount using market yields at the end of reporting period on government bonds.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the Asset Ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

E. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present legal obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized but are disclosed in the notes to the financial statements. A contingent asset is neither recognized nor disclosed if inflow of economic benefit is probable.

F. Revenue Recognition

Income from dividend is accounted as and when such dividend has been declared and company's right to receive payment is established.

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is recognized on time proportionate basis.

G. Income Tax

Income tax comprises current and deferred tax. It is recognised in profit or loss in respective year.

(i) Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax asset for all deductible temporary differences arising from investments in subsidiaries and associates will be recognized only to the extent that, it is probable that:

- the temporary difference will reverse in the foreseeable future; and
- taxable profit will be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on net basis or their tax assets and liabilities will be realized simultaneously.

H. Cash and Cash Equivalents

Cash and cash equivalents include cash and cheques in hand, bank balances, demand deposits with banks and other short term highly liquid Investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value where original maturity is three months or less.

I. Earnings per Share

Basic earnings per share is calculated by dividing the net profit after tax for the year attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is calculated by dividing net profit attributable to equity shareholders (after adjustment for diluted earnings) by average number of weighted equity shares outstanding during the year plus potential equity shares.

J. Cash Flow Statement

Cash flows from Operating Activities are reported using the indirect method whereby the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. Company being an Investment Company, Purchase & sale of investments have been considered as part of "Cash flow from Investing activities" & interest / dividend earned from said investments during the year have been considered as part of "Cash flow from Operating activities".

K. Other Income

"Accounting for Government Grants and Disclosure of Government Assistance"

Government of Gujarat Support and Assistances received are accounted in accordance with Ind AS 20. Government support and assistance takes many forms varying both in the nature of the assistance given and in the conditions which are usually attached to it. Government support is recognized through profit and loss when it is established that the support is for the purpose other than capital expenditure and the related revenue expenditure has been adjusted against government support/ grant for the purpose of disclosure in statement of profit and loss. A government support/grant that becomes receivable in terms of government resolution is recognized in profit or loss of the period in which it becomes receivable."

3.1 Standards issued but not yet effective

The MCA notified Ind AS 117 on 9 September 2024 to be applicable from 1 April 2024. However, the same was withdrawn vide notification dated 28 September 2024 wherein the applicability of Ind AS 117 was made subject to notification of IRDAI. IRDAI has not notified Ind AS 117. Therefore, as of now, Ind AS 117 has been issued but from when it will be applicable is uncertain. The company is evaluating the impact of the standard on its balance sheet, statement of profit and loss and statement of cash flows.

The Respective board of directors of the Company, its associates are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by these entities considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). The Group presents its financial statements to comply with Division III of Schedule III to the Companies Act, 2013 which provides general instructions for the preparation of financial statements of a non-banking financial company (NBFC to comply with Ind AS) and the requirements of Ind AS. As per para 60 of Ind AS 1, an entity shall present current and non-current assets, and current and non-current liabilities, as separate classifications in its balance sheet except when a presentation based on liquidity provides information that is reliable and more relevant. Hence, the assets and liabilities are classified as financial, non-financial as opposed to current, non-current classification as required by Division I and Division II of Schedule III.

Accounting policies have been consistently applied except whereby a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the Accounting Policy hitherto.

(ii) Historical cost convention

The consolidated financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with generally accepted accounting principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for the following:

The actual outcome may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

A. Principles of consolidation and equity accounting

The consolidated financial statement of GSIL represents consolidation of its consolidated financial statements with subsidiary and associates. The proportion of ownership interest in subsidiary and associate is as follows:

Name of Entity	Relationship with GSIL	Direct Control or Control through Subsidiary (indirect Control)	ownership interest as on 31st March 2025	ownership interest as on 31st March 2024
Gujarat Narmada Valley Fertilizers Co. Ltd	Associate	Associate	21.44%	21.44%
Gujarat State Fertilizers & Chemicals Co. Ltd.	Associate	Associate	37.84%	37.84%
Gujarat Alkalies & Chemicals Ltd.	Associate	Associate	20.87%	20.87%
Gujarat State Petroleum Corporation (GSPC)	Associate	Associate	23.42%	35.03%

Associates

Associates are entities over which the group has significant influence but not control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

(i) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income.

Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Accounting policies of equity accounted investees have been aligned where necessary to ensure consistency with the policies adopted by the group.

The carrying amounts of equity accounted investments are tested for impairment in accordance with the policy.

(ii) *Changes in ownership interests*

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control or significant influence, any retained interest in the entity is re-measured to its fair value with the change in carrying amount recognised in the consolidated statement of profit and loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to consolidated statement of profit and loss.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to consolidated statement of profit and loss where appropriate.

3. Material Accounting policies

1. Material Accounting Policies

A. Financial Instruments

a. Financial Assets:

i.) Classification:

The Company classifies its financial assets in the following measurement categories:

- Those measured at amortized cost and
- Those measured at fair value through profit or loss.
- Those measured at fair value through other comprehensive income.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL and FVOCI:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of a financial asset give rise on specified dates to cash flows that are solely payments of Principal and interest on the principal amount outstanding.

Financial assets are not reclassified subsequent to their initial recognition except if and in the period the Company changes its business model for managing financial assets.

ii.) Measurement

At initial recognition, the Company measures a financial asset when it becomes a party to the contractual provisions of the instruments and measures at its fair value. Transaction costs are incremental costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Subsequent Measurement and Gains and Losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains including any interest or dividend income, are recognized in profit or loss.
Financial assets at FVOCI	These assets are subsequently measured at fair value. Net gains including any interest or dividend income, are recognized through other comprehensive income.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

Equity Instrument:

All equity investments in scope of Ind-AS 109 are measured at fair value. The Company decides to classify the Equity instruments either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value

changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

iii.) De-recognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

b. Financial Liabilities:

(i) Classification, Subsequent Measurement and Gains and losses

Financial liabilities are classified as measured at Historical cost. Government of Gujarat, in capacity of the Promoter of the company, provides investment funds in form of interest free loans having specific directions to invest in equity shares of Group Entities of the company in terms of CIC directions. Investment funds, released as loan by GoG, when received for investment in equity are recognized as financial liabilities. There exist an obligation, however, the terms and conditions do not specify that whether the loan is repayable on demand and also fixed repayment schedule is not specified.

(ii) De-recognition

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the profit or loss.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

B. Property, Plant and Equipment

i. Recognition and Measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation, and accumulated impairment losses, if any.

Useful lives have been determined in accordance with Schedule II to the Companies Act, 2013. The residual values are not more than 5% of the original cost of the asset.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Depreciation

Depreciation is calculated using the straight-line method to write down the cost of property and equipment to their residual values over their estimated useful lives which are in line with as specified under schedule II of the Act.

Useful life of the assets are as under:

1. Vehicle – 8 years
2. Furniture & Fixtures – 10 years
3. Office Equipment – 10 years
4. Computers – 3 years

Depreciation is provided on a pro-rata basis from the date on which such asset is ready for its intended use. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. PPE is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other income / expense in the statement of profit and loss in the year the asset is derecognised.

C. Lease

The company's lease arrangements primarily consist of lease for office building. At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

D. Employee Benefits

Short Term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Defined Benefit Plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount using market yields at the end of reporting period on government bonds.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the Asset Ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

E. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present legal obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognized but are disclosed in the notes to the financial statements. A contingent asset is neither recognized nor disclosed if inflow of economic benefit is probable.

F. Revenue Recognition

Income from dividend is accounted as and when such dividend has been declared and company's right to receive payment is established.

Interest income from a financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is recognized on time proportionate basis.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

G. Income Tax

Income tax comprises current and deferred tax. It is recognised in profit or loss in respective year.

(i) Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date. Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax asset for all deductible temporary differences arising from investments in subsidiaries and associates will be recognized only to the extent that, it is probable that:

- the temporary difference will reverse in the foreseeable future; and
- taxable profit will be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on net basis or their tax assets and liabilities will be realized simultaneously.

H. Cash and Cash Equivalents

Cash and cash equivalents include cash and cheques in hand, bank balances, demand deposits with banks and other short term highly liquid Investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value where original maturity is three months or less.

GUJARAT STATE INVESTMENTS LIMITED

Notes to Consolidated financial statements for the year ended 31st March, 2025

Diluted earnings per share is calculated by dividing net profit attributable to equity shareholders (after adjustment for diluted earnings) by average number of weighted equity shares outstanding during the year plus potential equity shares.

J. Cash Flow Statement

The cash flows from operating, investing and financing activities of the Company are segregated. Company being an Investment Company, Purchase & sale of investments have been considered as part of "Cash flow from Investing activities" & interest / dividend earned from said investments during the year have been considered as part of "Cash flow from Operating activities".

Government support is recognized through profit and loss when it is established that the support is for the purpose other than capital expenditure and the related revenue expenditure has been adjusted against government support/ grant for the purpose of disclosure in statement of profit and loss. A government support/grant that becomes receivable in terms of government resolution is recognized in profit or loss of the period in which it becomes receivable."

L. Standards issued but not yet effective

The MCA notified Ind AS 117 on 9 September 2024 to be applicable from 1 April 2024. However, the same was withdrawn vide notification dated 28 September 2024 wherein the applicability of Ind AS 117 was made subject to notification of IRDAI. IRDAI has not notified Ind AS 117. Therefore, as of now, Ind AS 117 has been issued but from when it will be applicable is uncertain. The company is evaluating the impact of the standard on its balance sheet, statement of profit and loss and statement of cash flows.
